

# COLOUR SOUND EXPERIMENT ltd

**LONDON**

**JEDDAH**

**LOS ANGELES**

**JOB TITLE: LED VIDEO WALL REPAIR  
TECHNICIAN  
LOCATION: LONDON, UK**

**NOW HIRING**

**JOB PACK // MAY 2024**

# WHO WE ARE

Colour Sound Experiment has spent the last 34 years at the forefront of creative immersive lighting displays, supplying equipment and crew to event productions.

Over the years we have heavily expanded and invested in new technologies and new territories, but are proud in that time to have also maintained our independence.

It allows us to be agile and retain the original ethos that has kept decades long relationships with clients and our teams strong and connected.

# JOB ROLE: LED VIDEO WALL REPAIR TECHNICIAN

## Roles and Responsibilities

- Ability to solder small components and LED video wall pixels with an understanding of the electronic circuits
- Fault finding, repair, service and maintenance of LED Video wall and Video Equipment
- Develop a strong understanding of the LED, camera and PPU systems and look to increase knowledge of new systems
- Liaise with suppliers to source replacement parts
- Package equipment to be sent away for warranty or specialist repair
- Other ad-hoc duties as specified by the Head of Video, Directors or their respective team members

The key objective is to keep the fleet of varying LED products in excellent condition alongside performing software updates as required. Training will be provided to the right candidate.

# PERSONAL QUALITIES, SKILLS AND ABILITIES

We're looking for someone who matches  
our values of industry passion, humour and  
creativity.

Demonstrable experience essential and industry  
knowledge highly desirable.

# RENUMERATION AND BENEFITS PACKAGE

Salary is dependent on experience, with a range of approximately £27,352-£33,000pa. We welcome applications from more experienced candidates as well, who might fall outside that range.

- Subsidised canteen onsite
- Electric Car Scheme
- Cycle to Work Scheme
- Optional private medical insurance
- Optional wellness programs and mental health care
